

GOLD SERIES VIDEO SYSTEM

HD VIDEO UPGRADE

In the early 1990s the Gold Series video system was the pinnacle for in-flight entertainment. It is a video switcher with basic interface. Today an upgrade option is available for the legacy Gold Series Video system. The solution offer by DPI labs will interface directly to the existing Gold Series audio control unit and cabin switch panels. The Video switcher will be upgraded to HD capable. In order to get the full HD experience, three components must be upgrade: source equipment, video switcher and monitors.

NEW PART

SL-HD100X-9
SP37-3

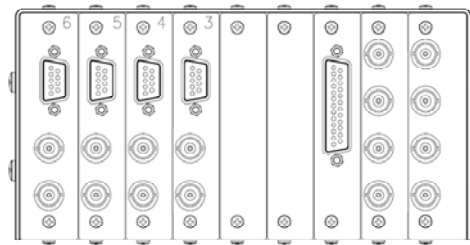

ORIGINAL PART

MS2002
MS2004
MS2006
